# Sureview 15" Digital Rod Displays

Bring estate agent windows to life with the state-of-the-art digital signage technology that replace traditional light pockets

Rod Powered Displays

No mains cable is required to provide power as these innovative screens are powered via the rods on which they are mounted. Achieve a clean and seamless installation with no cables whatsoever for a modern and sleek feel.

Rod Powered
Sunlight Readable Digital Light Pockets

Catch the attention of passers-by and potential customers with these 1,000cd/m² high brightness LCD digital light pockets. Ideal for combining with static light pockets in window displays to provide eye-catching motion alongside printed signage.

- Ideal for Estate Agents
- Rear Graphics Pocket
- Android Media Player
- LED Frame
- Integrated Speakers
- Temperature Control
- Wide Viewing Angle
- Free Scheduling Software
- Multi-Screen Synchronisation
- Network Upgrade

SUREVIEW

Other Features

Free Network Upgrade

The capability of updating this screen remotely over the internet is included at no extra cost. Just choose the software subscription package that suits yours needs so you can realise the benefits of our online content management system.

NETWORK

1,000cd/m² Commercial Panel

Brightness is paramount when using outward facing screens, these displays use commercial grade high brightness panels (1,000cd/m²); almost 4 times brighter than a standard home TV to allow easy readability in window displays.

Conventional Signage Display

Digital Rod Display

Rear A4 Graphics Pocket

On the rear of the display there is a pocket that a printed A4 graphic can be inserted into to really maximise on the space used. This can be removed if necessary but comes as standard at no extra cost.

Removable Back Section

24/7 Usage

These displays use a commercial grade LCD panel and LED backlight. They have the ability to be in constant use 24/7 for over 70,000 hours and are designed for commercial use.

24hr
7 Days

Exclusive Template Library

As well as being able to create your own layouts you can choose from our exclusive library of pre-design editable templates. Choose an existing layout, add your own images and information then publish it to your screen.

LED Frame

These displays have an attractive LED illuminated bevelled edge to compliment traditional static light pockets seamlessly.

Illuminated LED Frame

Dean Street, WR10

Synchronise Multiple Displays

Synchronise your content across multiple screens in the same window display. You can achieve the effect of one large image or video across multiple screens or have content playing and transitioning in perfect unison.

USB Plug and Play

If you don't want to use our online CMS these displays can be updated quickly and easily by copying your images and videos over via USB stick. Even if you are using the network option this is a great backup if there are any internal network related issues.
